## Our Partner Network

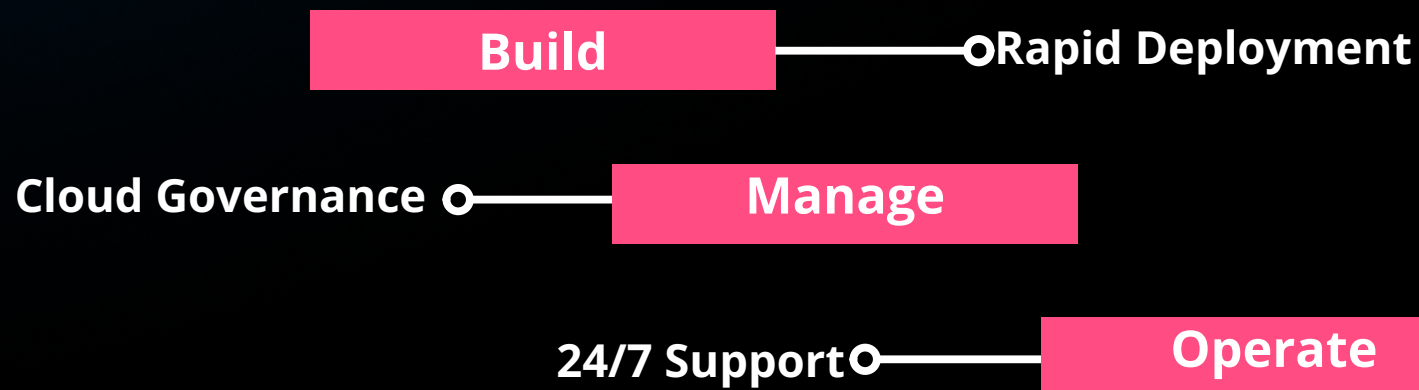

# Devopstrio's Cloud Managed Services for Azure

# Sharpen your competitive advantage with Devopstrio

By partnering with Devopstrio to oversee your Azure workloads, you gain measurable cost savings, enhanced operational efficiency, and faster access to the full benefits of cloud transformation.

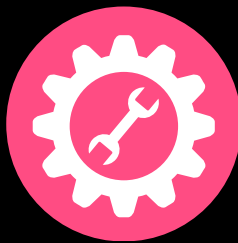

Migrating workloads to Azure reduces reliance on on-premises infrastructure and lowers related expenses, but that's only the first step. When organizations continue to self-manage critical IT operations and applications, they often lose the agility and speed that cloud adoption is meant to deliver. With Devopstrio's Cloud Managed Services (CMS), our team handles the ongoing management of your cloud environment, allowing your in-house teams to shift focus from routine maintenance to driving innovation and advancing strategic priorities.

# Why Devopstrio CMS Stands Apart

With deep expertise in cloud transformation, Devopstrio delivers comprehensive, end-to-end services tailored to your business needs. Leveraging strong ecosystem partnerships and worldwide experience, we work alongside you at every step of your cloud journey.

Backed by deep expertise across business and cloud technologies, Devopstrio is uniquely equipped to design, implement, and oversee a holistic cloud strategy. Our approach ensures that cloud becomes a true enabler of your future vision enhancing operations and elevating the way you deliver value to your customers and stakeholders.

## Build

Accelerate the setup and configuration of your cloud environments by tapping into Devopstrio's extensive collection of automation frameworks and prebuilt runbook templates

## Manage

Access a unified portfolio of managed cloud services including automation, security, and on-demand capabilities, all delivered through the Devopstrio Open Cloud platform and proven support practices

## Operate

Benefit from 24/7 global support and rapid issue resolution provided by Devopstrio's dedicated delivery teams across the world.

# Beyond the basics

Devopstrio CMS delivers capabilities that extend well beyond baseline infrastructure components such as virtual machines, networking constructs, availability zones, and 24×7 security operations. The platform is engineered to address advanced cloud management requirements, including cloud-native and serverless architectures, encryption for data in transit and at rest, adherence to regulatory and compliance mandates, and orchestrated disaster recovery strategies. These services are delivered consistently across heterogeneous multi cloud environments, not limited to Azure alone.

## Infrastructure Management

Provision and govern cloud environments with proactive monitoring to ensure system reliability and adherence to defined SLAs.

## Optimization & Transparency

A unified view of cloud consumption, performance, and cost analytics, empowering data-driven optimization and footprint rationalization.

## Service Management

24×7 expert support for alert monitoring and incident resolution, with a client portal delivering real-time visibility into service health and performance.

## Cybersecurity

Accelerated deployment of security policies, configurations, and processes to enable full-cycle protection, detection, and response.

## Application Management

End-to-end application lifecycle services—including development, modernization, maintenance, and operations—for mission-critical business workloads.

## Automation & DevOps

A flexible, automation-driven framework enabling rapid deployment of full-stack cloud solutions through Infrastructure as Code and CI/CD pipelines.

# Benefits of Devopstrio CMS and OpenCloud

## Business-Aligned Outcomes

Solutions tailored to your strategic objectives, driving measurable value while enabling enterprise-wide agility.

## Consumption-Driven Cost Efficiency

Flexible, usage-based pricing models that optimize spend while supporting scalability, agility, and sustainable growth.

## Embedded Security & Compliance

Enterprise-grade security and regulatory controls integrated natively into the platform for full lifecycle protection and assurance.

## Rapid, Configurable Deployments

Accelerated cloud rollouts—each designed, provisioned, and managed to align with your unique functional needs and budgetary priorities.

## Optimized Performance

Offload operational overhead and empower internal teams to focus on innovation and other high-value initiatives.

## End-to-End Support

Continuous expert guidance and management—from initial strategy through deployment, operations, and ongoing optimization.

# Devopstrio: Driving Enterprise Transformation on Azure

# Devopstrio: Driving Enterprise Transformation on Azure

Our Azure practice delivers consistent, end-to-end capabilities built on reliable hybrid cloud solutions. We help enterprises harness the power, agility, and speed of Azure to drive large-scale innovation and measurable business impact. By combining independent objectivity with deep cloud expertise and strong technology partnerships, we enable organizations to realize value quickly and effectively from their cloud investments.

## Accelerating Cloud Impact

With Azure at the core, Devopstrio integrates industry- and domain-specific accelerators that are optimized for enterprise deployment. By aligning Azure-native services with business priorities, we enable organizations to accelerate innovation, modernize operations, and amplify the strategic impact of cloud across the enterprise.

## Recognized Leadership

Devopstrio is consistently acknowledged by industry analysts for excellence in cloud services and transformation. For the most current list of recognitions and accolades, please visit our [website](#).

## Innovate with Confidence

Devopstrio combines advisory, implementation, and operational expertise—built on decades of delivering large-scale transformations and collaborating across complex technology ecosystems. Trusted by clients worldwide, we help enterprises harness the power of Azure to achieve business outcomes with speed, efficiency, and confidence.

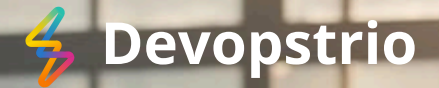

# Devopstrio: Driving Enterprise Transformation on Azure

-  Certified staff aligned with the Microsoft Azure Expert Managed Services Provider Program.
-  Certified professionals meeting Microsoft Cloud Platform Gold Competency standards.
-  Expertise, resources to accelerate cloud adoption with SAP on Azure reference architectures & playbooks.
-  An established Azure practice operating across 2+ countries.
-  Proven competencies in migration, machine learning, data and analytics, SAP, security, DevOps, and IoT.

Note: As Microsoft's Independent Auditor, Devopstrio is not a Microsoft partner and does not participate in the partner program or hold partner designations, such as competencies.

# Industry Insights for Accelerated Cloud Impact

Devopstrio applies deep industry and business domain expertise across six key sectors, helping clients unlock the full potential of Azure. By combining sector-specific knowledge with cloud innovation, we enable organizations to achieve outcomes faster and with greater impact.

## Consumer

By combining Azure's advanced capabilities with Devopstrio's proven solutions in technology, human capital, and strategy, consumer-focused organizations can enhance real-time supply chain visibility and deliver superior customer experience value.

## Energy, Resources & Industrials

Devopstrio delivers Azure-enabled solutions across oil, gas, chemicals, power, utilities, renewables, and industrials, helping organizations modernize operations and drive sustainable growth.

## Financial Services

Devopstrio provides trusted Azure-enabled services to financial and insurance organizations, driving cloud adoption, operational transformation, and technology modernization.

# Industry Insights for Accelerated Cloud Impact

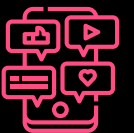

## Government & Public Services

Devopstrio leverages decades of experience and deep Azure expertise to help government agencies and educational institutions modernize services and fulfill their missions effectively.

## Life Sciences & Health Care

Devopstrio delivers strategies and Azure-powered solutions to help life sciences and health care organizations address industry challenges and harness new opportunities for innovation and growth.

## Technology, Media & Telecommunications

Devopstrio helps technology, media, and telecom organizations tackle complex challenges with Azure-enabled solutions, delivering innovation, scalability, and measurable business impact.

# Integrated Azure Consulting Services

Devopstrio's Azure experts combine broad service capabilities with deep technical resources to help you adapt, scale, and innovate—no matter the complexity of your cloud challenges or opportunities.

## **Analytics & AI**

Transform your business into a cloud-centric, insights-driven organization

## **SAP on Azure**

Transition to Azure Cloud and SAP S/4HANA with a build-to-evolve approach

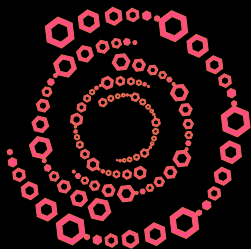

## **Business Applications**

Elevate human experiences and modernize every aspect of your business

## **Intelligent Edge and IoT**

Engineer IoT and Edge computing platforms to streamline your business operations

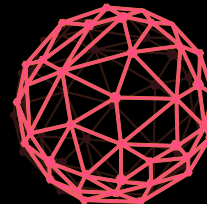

## **Azure Hybrid Cloud**

Orchestrate your cloud journey from core to edge and everything in between

## **App Modernization and Migration**

Innovate, unlock value, and reduce operational costs

## **Modern Workplace**

Allow employees to work collaboratively and securely, anywhere, anytime, on any device

## **Cybersecurity**

Protect essential business functions and reduce risk in an ever-changing threat landscape

# Our Offshore Development Team

**At Devopstrio, our Offshore Development Team helps enterprises stay ahead in today's market by delivering scalable solutions across Cloud, AI, and digital platforms. With deep expertise and a global delivery model, we empower organizations to modernize, innovate, and reduce costs. Our offshore team acts as a seamless extension of your business, committed to accelerating transformation and long-term success.**

“

Three pillars form our strength—People, Process, and Technology. Three domains shape our focus—Cloud, Data, and AI. Across Azure, AWS, and GCP, we bring innovation to life. At Devopstrio, we unite DevOps and automation to modernise infrastructure and accelerate digital success.
